

# *Goodbye to Darwin*

James Perloff

I always believed the Bible  
I knew that it had no rival  
But then in public school  
They said I was sure a fool  
The program of this institution  
Is the theory of evolution  
Why bother to see a priest?  
Don't you know you're just a beast?

Oh, how did we rise from the muck?  
They say it just happened by good luck!  
The only way we advance  
Is by the hand of chance  
So prance, prance, prance  
to the Darwin dance!

They said that there's no design  
Nothing in this world's divine  
Everything in all creation  
Came about from chance mutation  
Now the school kept teaching this lie  
The kids lost their faith by and by  
The results left no escape  
We soon had the morals of the ape

Oh, how did we rise from the muck?  
They say it just happened by good luck!  
The only way we advance  
Is by the hand of chance  
So we pranced, pranced, pranced  
to the Darwin dance!

Then finally I just got weary  
Of hearing of Darwin's theory  
As science it's just facade  
For spurning the truths of God  
I said I'd like to differ if you please  
Mutations cause sickness and disease  
And cells are too complicated  
For chance to have created

Oh, how did we rise from the muck?  
They say it just happened by good luck!  
The only way we advance  
Is by the hand of chance  
So prance, prance, prance  
to the Darwin dance!

A frog turned into a handsome prince  
We call that a fairy tale  
But say that evolution did it  
Get a PhD from Yale  
Good-bye, Darwin, good-bye  
We've had enough of your lie  
Good-bye, Darwin, good-bye
